

REALISTIC TRAINING, WHEN REAL LIFE MATTERS

MASKhaze™

FIRE AND RESCUE TRAINING PRODUCTS

TRAIN SAFER and SMARTER

Firefighters must be at their best when lives are on the line and every second counts.

Designed by a mechanical engineer, battle-tested by a family of firefighters, and made right here in the USA, our MASKhaze™ and SRTmaze™ products have revolutionized the training of emergency responders.

MASKhaze Original

MASKhaze Light

- Available in two different sight densities*

*Not available for all models

MASKhaze™

SIMULATED SMOKE TRAINING FILM FOR SCBA MASKS

Smoke simulation training options usually involve duct tape or smoke machines, neither of which creates the level of realism of an actual fire emergency. Our patented MASKhaze technology uses a specially designed film over the mask that alters and reacts to light like smoke, making it the most realistic tool available today.

REUSABLE 3X's

- No residue
- Tight fitting
- Waterproof

**For training purposes only.*
Not to be used in IDLH environments.

For more information contact **MASKhaze@tbrtengineering.com**
or visit us online at **MASKhaze.com**

MASKhaze™ ORIGINAL

Patent #10,726,734

The film is applied on a reusable paper backer with a non-stick side that allows for clean storage and use later.

* MASKhaze is not to be used in IDLH environments.

REUSABLE and VERSATILE

Abandoned burn building training is limited to one-time use. In contrast, do-it-yourself training structures often use rigid plywood — leaving firefighters stuck practicing in the same set-up over and over again. With our patent-pending SRTmaze, the materials can be reconfigured in endless ways to better prepare for any environment.

SRTmaze training can be used for:

- Search & rescue
- Trench
- Confined space
- RIT/RIC

- Endless configurations
- Set up is typically less than 10 minutes
- Each panel weighs less than 30 lbs.

  Compact storage

  Three variant options available: impact-resistant ABS plastic, high-strength aluminum, or steel
- Optional window and drywall panels available
- Panels can be stacked to create multi-story training

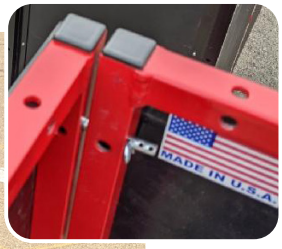

SRTmaze™

SIMULATED RESCUE TRAINING

With flexible, lightweight materials and easy connections, our SRTmaze typically takes less than 10 minutes to set up using clevis pins and cotters. All panels can also be quickly broken down and stored tightly next to a wall.

SRTmaze ORIGINAL

- Constructed of proprietary extruded aluminum and high impact ABS sheeting
- Plastic is inset allowing for less binding
- Frame is powdercoated red
- Each model comes with 4' x 4' panels and connecting pin sets.

PRICING AND ORDERING

Model SRT45010.	see price list

Includes: (12) 4 'x 4' panels and 24 pins and cotters

Model SRT45012.	see price list

Includes: (24) 4 'x 4' panels and 48 pins and keepers

Model SRT45013.	see price list

Includes: (36) 4' x 4' panels and 72 pins and keepers

SRTmaze - HD (Heavy Duty)

- Constructed of proprietary extruded aluminum and diamond tread plate
- Floor panels offer higher load rating
- Fully welded construction
- Panel insets making it less binding
- Diamond plate texture
- Each model comes with 4' x 4' panels and connecting pin sets.

PRICING AND ORDERING

Model SRT45001HD	see price list

Includes: (12) 4 'x 4' panels and 24 pins and cotters

Model SRT45002HD	see price list

Includes: (24) 4 'x 4' panels and 48 pins and keepers

Model SRT45003.	see price list

Includes: (36) 4' x 4' panels and 72 pins and keepers

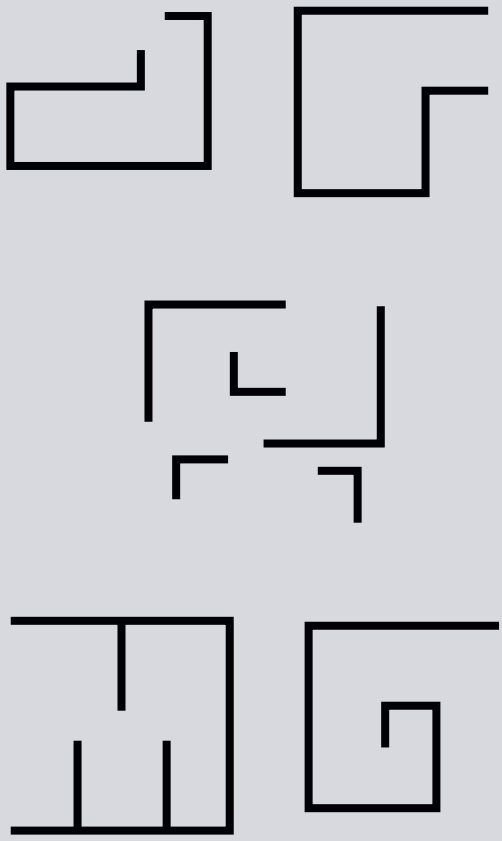

SRTmaze - FR (Fire Rated)

- Constructed of all steel
- Floor panels offer higher load rating
- Fully welded construction
- High load rating capacity
- Each model comes with 4' x 4' panels and connecting pin sets.

Innovations

At MASKhaze, we continually raise the bar of innovation to create ways to improve our existing products and find additional products to help fire personnel train safer and more authentically.

Flame Box*

Our latest product, the Flame Box, simulates fire, providing another element to your training for RIT and confidence building. The case is waterproof and has Bluetooth canisters capability, making recharge easy.

Dimensions: 9" x 12" x 6"
Includes remote
Waterproof
Bluetooth capability

*patent pending

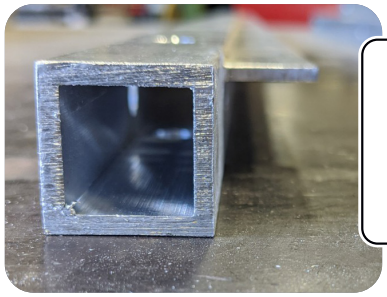

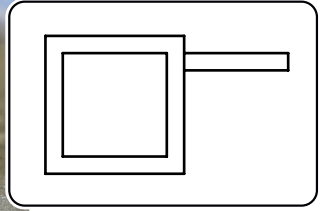

MASKhaze Dazzle Pattern

This patented training pattern was created based on the military camouflaging techniques used in WW I. Using similar technology, we have created a design specifically for confidence training.

Extrusion Body

Our proprietary extrusion design allows the plastic exterior to be inset, making the panel connections the same on all sides.

Warranty

Thank you for showing interest in the products of MASKhaze, LLC. This Limited Warranty applies to physical goods and only physical goods purchased from MASKhaze, LLC. This Limited Warranty covers any defects in material or workmanship under regular use during the warranty period. During the warranty period, MASKhaze, LLC will repair or replace, at no charge, products or parts of a product that are defective because of unsuitable material or workmanship, under regular use and maintenance. MASKhaze, LLC will repair the product at no charge, using new or refurbished replacement parts. The warranty period for physical goods purchased from MASKhaze, LLC is one year from the date of purchase. A replacement physical good or part assumes the remaining warranty of the original physical good. This Limited Warranty does not cover any problem caused by conditions, malfunctions, or damages not resulting from defects in material or workmanship.

To obtain warranty service, please contact MASKhaze at www.MASKhaze@tbrtengineering.com to determine the problem and the most appropriate solution.
